REFERENCE LETTER

CSE Control Systems Engineering Sp. z o.o., Poland were appointed to the Lead the site Construction Management services for a new build IBM Data Center in Poland. The assignment was to manage execution the design and construction to deliver one of the largest single room state of the art Data Center in Europe. The service required CSE Engineering to take the Lead Construction Management position which was supported in part with members of our own team. The construction value was in excess of 10 million Euro Net and it was completed and fully commissioned in 10 months. After extensive Testing and Commissioning (T&Cx.) and Integrated System Testing (IST), the project was very well received by IBM.

With satisfaction we can confirm that **CSE Control Systems Engineering Sp. z o.o., Poland** fulfilled its assignments professionally, reliably and on time. The company demonstrated transparency, innovative engineering expertise, and helped us to lower the cost and to raise the technological standard of the Data Center up to IBM's expectations. We can objectively and impartially recommend its services to other investors.

Yours sincerely,

Thorsten Brudigam
Chairman of the Board
